- A Sentries at road barriers which were set up only after the arrival of the troops in mid-October 1950.
- B Garage building, about 60 meters long, with workshops and spare parts rooms.
- C Reconstructed garage building.
- D Garage building, about 60 meters long.
- E Four-story buildings housing offices and officer billets. The northeastern building had a wooden tower on its roof which was not occupied.
- F Four-story buildings in good condition, apparently office buildings, since officers carrying file folders were frequently seen there. The western building had a wooden tower on its roof which was occupied by a guard, and had a rod antenna connected by a wire with another antenna pole on the same roof.
- G Barracks buildings.
- H Areas from which the noise of engines and the rattle of track-laying vehicles were heard.
